

# BLUE SOLUTIONS

## LET'S LEARN FROM OTHER'S SUCCESSES THE SOLUTIONING APPROACH

Let's not keep reinventing the wheel but learn from each other's successes in the management and governance of our oceans and coasts.

The Blue Solutions Initiative acts as a global knowledge platform to collate and share knowledge about what works and to enhance capacities in order to enable scaling of success in marine management and support creation of evidence-based innovation.

The side event will introduce the initiative and its "solution-ing" approach to distilling key success factors of solutions on management and governance of marine and coastal areas, defining how they work in their unique context and how they can be adapted to new circumstances.

**SIDE EVENT**

**Thursday, 16th October**  
**18:15 – 19:45**

**Hall C, Room 1 –**  
**CEE Meeting Room**

**Snacks provided**
