UNITED NATIONS DECADE ON
**ECOSYSTEM
RESTORATION**
2021-2030

US\$258 million in the last 10-15 years

6 Key Recommendations >>> <https://www.icriforum.org/coral-restoration-funding-report/>

1. An increase in the amount and availability of dedicated funding for coral reef restoration is required as we begin the UN Decade on Ecosystem Restoration.

2. Funders need to account for both short and long-term goals of coral reef restoration.

3. More research into sustainable funding for coral reef restoration is required.

4. Funding accessibility needs to be improved.

5. Funding for coral reef restoration should support greater capacity building.

6. Better communication on the realities of coral reef restoration is necessary
